News from the Handi Ham Bureau

Bob Braddock, KC2IYE

Not a lot of activity, but still many contacts are made by the Handi Hams. With the help of **Dave, W5DMT** we are reaching out to Handi Hams and to bring them to the club. I am currently joining several handi ham groups to pass on our services. If we get a handi ham check in we make sure they are contacted to offer the service. Here are some of the handi ham cards that I have made up for them.

On a personal note - I am promoting Ham Radio at our local library.

In the land of modern technology, youngsters are still fascinated by ham radio. Here are two pictures of the youngsters practicing their names in Morse code.

Most of you have worked my newest handi ham, **Mike AC8ER**. Mike is very enthusiastic and excited about making contacts on the nets. I have been coaching him on how we run our nets, net logger procedures and general practices. I am also helping him, along with his Awards manager, **Vicki K8VGM** on achieving his 100 pt award. He generally works 40 early and late and 75 early. He makes between 5-8 contacts per net. He has so many cards that Rob had to ship as Rob says, a brick !!! He certainly keeps me busy!!

Mike has finally got his amp out of the box and is now putting out 1200 watts in to a 6 band Butternut. In the future I can see him as an excellent NCS !! Please welcome him to our club !! Since we are on the subject let's go over some of the handi ham procedures and as always any questions please contact me.

- 1- All handi ham operators are GIB. As long as you are GIB, you can send his cards to the bureau.
- 2- **You must initiate the card first.**
- 3- If you are not GIB, { good in the bureau} sent the card to me, **KC2IYE** and will take care of it from there.
- 4- My address is on the web site as well as on QRZ
- 5- DO NOT send the card to Mike directly.
- 6- Also, if you are missing any cards from Mike or any other handi ham, please contact me.

73, Bob KC2IYE

The I-ball of Missouri is lookin' at ya!!!

A local ham operator brought his 5-year-old son to the ham radio luncheon recently. While daddy was in line to order the meal, the little boy struck up a conversation with another ham who was already eating. When the ham introduced himself to the little boy, the kid's eyes got wide. "Have you ever heard your daddy talk about me?" the ham asked. "Yes," the boy nodded. "Daddy talks about you all the time," he continued, "and when I get big and get a job, I'm going to give you lots of money." This surprised the old timer, so he said, "well, that's very nice of you, but why would you want to give me money?" The little boy replied, "Well, daddy always says that you are absolutely the poorest ham radio operator he's ever heard on the air in his entire life!"

Dayton Hamvention—New Location

It looks like the Dayton HamVention will no longer be held at the Hara Arena. It's been held there almost twice as long as I have been alive.

The Glowbugs' Christmas

Author unknown

T'was the night before Christmas
And all through the shack
Not a heater was glowing
In all of the rack.

Sitting totally silent and quiet that night
The old HRO shed nary a light.
The Johnson exciter and its homebrew final
Felt cold as leftovers, or seat-cover vinyl,

I drowsed at my workbench feeling tired and weary,
The print in the Handbook looked fuzzy and smeary.
I thought, "I'll make coffee", and groaned to my feet
When I heard a loud clatter outside in the street.

What the--? I wondered and turned on the lights
And there I beheld a wondrous sight:
A battered old van heaped high with components
And a grizzled old ham with a bagful of doughnuts.

I noted his callsign-- can't recall it today--
But a patch on the side read "FMLA".
I opened the door and hollered "Come in!
The coffee pot's heating, and we'll sit down and chin!"

He spoke not a word but whistled in Morse
A "GE OM", and "By golly, I'm hoarse.
Too many contacts, and hot rosin smoke."
I nodded and poured him a mug of jamoke.

He emptied the doughnuts in a pile on a plate
And explained in a whistle, "I'm running real late.
I've new 6L6s and fine 211s, 6146s and good 'SN7s.
And 866s and 0B2s, type 45s and mil-spec 807s."

"For the regennie crowd, 201s by the score
And good ol' type 30s and 19s galore.
I haven't neglected the passive-parts run
There's lots of good iron by old Thordarson."

I nodded and smiled, suppressing a chortle
As he reached in his pack and left me a 304TL.
He whistled, "I'm leaving, the coffee was great,
But I'm overdue in the neighboring state."

"Keep everyone building the rigs of their choosing
Or we'll lose the bands that we're lazy in using.
Transistors or tubes-- any project is fine--
Just keep on constructing and sharing on line."

He leaped to his feet and waved a gloved hand
As he sprang for the door and his rusty old van.
I heard him exclaim as he drove away from me,
"Merry Christmas, you Glowbugs, and to all 73!"
