N0PUI Describes 'Long- haul' to Masters No. 25

Jay Weiland, N0PUI, in Le Sueur, Minn. operates a Yaesu FT-920, Ameritron AL-811H, and MFJ 962 Versa Tuner III. He uses a 75 meter center fed longwire and a Cushcraft R-8 vertical for six through 40 meter operation.

It was a long-haul, five-and-a-half years from start to stop for Jay Weiland to have enough contacts to qualify for the Century Club's Masters Award No. 25.

"Yep, five-and-a-half years, that is not an error, Weiland said. "I have been enjoying the 3905 Century Club since December of 1999. I started out checking in from time to time, getting to know the lingo. I learned a lot and made a lot of great friends through the process."

See, 'Masters 25,' page 8

Voting Underway for New Club Officers

Candidates for officer's positions in the 3905 Century Club, including vice presidents and the board of directors have been announced by John Thornton, NJ9T, Century Club president.

Elections are now open for officers and the board, with voting being held at the group's website, www.3905ccn.com, and on-the-air.

The following candidates are running for vice president:

Paul E. Genaw, K8PG, Chatham, Mich.; Ron E. Stanley Sr., NC4RS,

Greensboro, N.C. NC4RS; Robert R. Duckworth, KE4DYG, Burlington, N.C.; and Rick L. Mobley, WB5FDP, Little Rock, Ark.

The following candidates are running for the position of area directors:

1st Area Director: Bob C. Wilson, KC1AU, Monson, Me.

3rd Area Director: Ron L. Rudinoff, N3EQK, Wilmington, Del.

5th Area Director: Jim W. Arterberry Jr., N5UJB, Lawton, Ok.; Wayne B. Rumley II, WA5YNE, Broken Arrow, Ok.; and Ed McCoy, W5ETM, Austin, Texas.

7th Area Director: Hugh McDonald, AC7XF, Bandon, Or.; and Bob Hall, KI7PM, Tucson, Az.

9th Area Director: Gene Schneider, WM9H, Greenfield, Wisc.; and Ron Kaufman, N9KNJ, New Haven, Ind.

DX Director: Phil King, VE3OII, Stoney Creek, Ontario, Canada.

Even if your area is running unopposed, please give them a vote anyway to let them know that you appreciate them running, and good luck to all.

30th Anniversary Logo Design Contest Entries Encouraged

One month to go on the 30th Anniversary Logo Contest, and the designs that are coming in are fantastic. The designs will be placed on the webpage at www.3905ccn.com, and members can vote for the winner.

The prize for the designer of the winning logo will be a Century Club jacket with the new logo and the designer's call sign.

There is still time to submit your design. "I know we have some very creative members out there," John Thornton, Century Club president, said. He urged everyone to email their original design to him at k9twv@mtco.com.

Club Mourns Three Silent Keys

The club offers condolences to the families of three long-standing members who have recently become silent keys.

K3HWL Robert E. Myers, Meadville, PA: 40 meter certificate #149; and 75 meter certificate #149.

N5LRR Andrew L. Taylor, Woodward, TX: 40 meter certificate #1321.

W6JGY Graham C. Naylor, Glendora, CA: 40 meter certificate #96; and 75 meter certificate #741.

2007 'Eyeball' Slated July 27-29 in Guthrie, Ok.

The 3905 Century Club, founded in 1977, will celebrate its 30th anniversary during the 2007 annual Eyeball to be held July 27-29 in Guthrie, Oklahoma, the first territorial capital of Oklahoma—and it promises to be an exciting event, because at the same time, Oklahoma will be celebrating its centennial.

According to Jim Richardson, N5OHL, Eyeball coordinator, the site is also well-located. One block off of Oklahoma Avenue, there are restaurants and shopping literally across the street. Yet, there is parking right there. Eyeball participants will have local trolley transportation, to and from the hotels, shopping, and museums.

Centrally-located, Guthrie is at the strategic intersection of Interstate 40 and Interstate 35, making it easy to get there from the north, south, east, and west. Guthrie is the largest urban historical district in the country. The original downtown remains intact with dramatic architecture from the turn of the century.

Yet, there are modern RV parks and motels, in addition to a dozen charming Bed 'n Breakfasts. There are all kinds of restaurants from locally owned home cooking to some chain restaurants. Guthrie offers many kinds of shopping around the corner from our Eyeball site, from antiques to numerous specialty stores along with a WalMart Super Center, a few minutes away.

The American Legion will be the site of Eyeball activities.

There are many other attractions around the corner. Besides the Capitol and its museum, Guthrie is home to a sports museum, music museum, and other specialty museums. These are smaller museums which only cost \$2 or

\$3, making them a great little break.

Events will take place at the American Legion Building, an air-conditioned hall with a full kitchen, so there will be refreshments throughout the Eyeball.

The Saturday night dinner will be included in your registration fee.

We have some special plans for activities during the Eyeball which we will tell you more about in the coming months,” Richardson said.

Guthrie, Ok., the site of the 2007 Eyeball also has several RV parks.

Rick Mobley, WB5FDP, Running for V.P.

Rick Mobley, WB5FDP is running for vice president. He was licensed in 1971 as WN5FDP after being encouraged to obtain his license by his father WA5OQY.

He quickly got interested in CW and RTTY so as soon as he could upgrade to a General class license, he became a participant in the National Traffic System.

Rick has a son in college. His wife, Debbie, has never shown much interest in joining the hobby.

Rick moved to Little Rock, Ark. and became involved with a local ham club.

Rick's first encounter with the Century Club occurred while he was tuning around one night on 160 meters, heard a net and suddenly heard several states. This intrigued him so he

After the names of the candidates running for office were released, Dave Kaiser, AL7HG, Centurion editor, appeals at the beginning of both 40 meter and 80 meter nets to obtain biographies of all the candidates. WB5FDP was the only candidate to respond.

checked back in a few days and found them there again.

After a few nights Rick decided to get his feet wet and jump in. His weak signal was heard after a few attempts and he was suddenly popular. Everyone wanted to make contact with him and before the net shut down for the summer he worked more than 30 states.

Rick found that his output power on 160 meters was only 35 watts, not quite QRP but certainly hard to

hear. He searched during the summer to get more power and reconstruct his antenna and soon had a much easier to copy signal.

Rick lives on a city lot so towers and beverage antennas aren't an option. He runs a horizontal loop in the backyard mounted in trees at about 30 feet. He says he wishes he had tried a horizontal loop antenna years ago.

Rick, who is self-employed, could juggle his schedule to get on the air, so he went to

www.3905ccn.com and found the schedule to meet nets on other bands and modes.

He holds the club's Masters award number 22, along with 43 other awards. He has more award applications in the envelope and is working on more of the fun awards.

"I have thoroughly enjoyed meeting almost nightly with my new Century Club family and want to share my excitement with everyone," Rick explains. "This group of amateurs are heads above almost any other group of amateurs I have heard on the air and I am proud to be a part of this family.

"We average 300 voting members that check into our nets monthly and I would like to see everyone cast a vote. Getting our members involved means we can grow this club to new heights and I want to be a part of that growth."

Rick predicts the latest R&O from the FCC indicates that the code requirement will be dropped. He believes this will result in an influx of operators to the General segment of the band and new stations checking into the nets.

"Please invite them in and encourage them," Rick urges. "Provide assistance to get them going and soon they too will be a part of our growing family."

Rick wants to do everything he can to raise the awareness of the club and make it a model to inspire others to follow.

The dining hall area will be used for meals and special events.

40 Meter Bureau Reports

Several December Mailings

A moderate sized mailing containing 60 envelopes was mailed by Richard Smale, W5IL, the 40 meter SSB buro manager Dec. 11.

Smale anticipated another mailing later that week, depending on the volume of incoming mail.

Smale said after that, there will not be another mailing until after the Christmas/Hannukah celebrations.

The last week of the calendar year will be spent putting together the "end of the year clearance."

Smalle said every station that has at least one card (and one envelope) will get a mailing.

At that time the buro will update its data base and drop those stations who have been out of envelopes for four months or more.

28 Years of World Class
Net Operations

The 3905 Century Club, Inc. is an international Amateur Radio Club incorporated in the State of Florida since February 1977. Its purpose is to assist hams both foreign and domestic in obtaining Worked All States awards. We have nets on 20, 40, 75, 80, and 160 meters operating a mixture of SSB, CW, RTTY and PSK-31 modes. The Club offers many fine certificates for contacts made on its nets which can also be used to obtain ARRL awards.

'Masters 25' ... continued from page one

How does one become a Master Degree Holder?

"First you have to be there," Jay explains. "You have to be there a lot, and that is just the start of the excitement.

"Second, you have to hear the stations to make the contact. You can't work them if you can't hear them."

Jay says he always had the propagation gods with him on a lot of the contacts he made.

"Third, there is a type of system of 'contacts to be made' that I have followed," Jay explains. "DX contacts always come first! This is because DX operators are usually only there once."

Next, Jay advises everyone to work mobile stations. These stations are usually only in these states once in a lifetime.

"Our 18-Wheeler members are also a great

help," he explains. "Often they bring along a club station and a special event, great multipliers in those hard to get states.

"Work the new operators and bring them into the club," he advises. "Many members have started by getting called, which creates a sense of belonging to the club. Keep those new operators coming back. Who knows, that could be the operator that provides you with the last contact you need on an award.

In filling out awards applications, Jay says it is essential to "choose wisely."

"Don't be in a hurry to fill out that 100 point application with the first QSL cards you get your hands on," he says. "At the time I did that and used a Rhode Island QSL which took quite a while to make another contact.

Use QSL's when you have many contacts in one single state. Jay has found it easiest to start filling out the 1000 point award, then use the

overages to go back to the 500 point and 100 point awards. The more cards you have to work with, the easier it is to shift contacts around on the applications. You would be surprised how much this helps.

If you are not sure on filling out award applications the club also supports a chat group where you can ask questions. Help is always there in a timely manner.

The tough award for Jay was 75 Meter DX. Again, you have to be there when they come on.

In recent years many operators in the club have helped out each other. E-mails, contacts off net to bring a DX station on the net.

The Poker Player Award, again another tuff one. Sometimes talking to others who have completed them can provide insight to who they have worked to get the award.

**Chronology of N0PUI's
Trek to the Master's**

N0PUI made his first **Award** WA CWG in Kentucky 40 meter SSB contact Oct. 14, 2002.

with KA5UAO in Mississippi Dec. 23, 2000. His first 40 meter CW contact was with

KE5AQD in Texas on June 2, 2005.

His first 80 meter CW contact was with N2XTT in New Jersey Nob. 4, 2001.

His first 80 meter CW contact was with W5UOT in Texas on May 27, 2005.

His first 160 meter SSB contact was with
