September 2024

THE 3905 CENTURY CLUB

THE CENTURION

NEWSLETTER

WELCOME TO FALL AND THE SEPTEMBER 2024 EDITION!

Hello all! This edition is going to be an abbreviated version of the Centurion focused on the upcoming eyeball travel schedules of our members. I would like to thank Debbie, K9DBB for her assistance in compiling the club & special event information and also everyone bringing these contacts to the nets for all of us on the way up to Laconia, NH.

As always, please continue sending me your articles to <u>aa1qw@startmail.com</u> by the 20th of each month to be included in the next month's edition. I'm looking forward to lots of eyeball write ups and photos for upcoming editions (hint, hint).

73! -Brian, AA1QW

REGISTER NOW!

The 47th Annual 3905 Century Club Eyeball is almost here! Come join us in Laconia, NH **September 05-08, 2024**, for what is always a great time.

> Registration is \$95.00. Please visit www.3905ccn.org/eyeball2024.php to register and for more information.

FROM THE PRESIDENT

From the Prez,

Laconia, NH Bound

Folks, by the time you read this all roads will lead to the Eyeball in Laconia, NH and many of our members will be enroute north. In this issue of the Centurion you will find schedules of stations heading mobile with their location to the eyeball including a list of stations that will also bring club stations and/or special event stations. I would suggest that you print this issue and keep it on hand.

From September 1st through the 10th we have modified the protocol of the nets and will only allow 1 call per round thus suspending the free calls with new stations and new stations will be limited to 1 call. Hopefully this will assist in making our nets run a little faster and giving stations more opportunities to work more stations. I know of one member who will be putting 30 stated on the nets surrounding the eyeball. My goal is to active 10 new states for myself.

So my message for everyone is to set aside the Eyeball week and work everyone.

For those interested here is a map on my sojourn from St Louis to Laconia:

FROM THE PRESIDENT (CONTINUED)

Here is the planned route for KL7OR and WA6LBU (all dates zulu):

- Sep 4 Indiana/Michigan state line
- Sep 5 Pennsylvania/New Jersey/New York tripoint
- Sep 6 Vermont/New Hampshire state line
- Sep 7 Vermont/Maine State line
- Sep 8 Early nets Mobile Massachusetts
- Sep 8 Late Nets Connecticut/Rhode Island state line
- Sep 9 Unknown
- Sep 10 Somewhere in Kentucky

Eyeball Station Club

Here is a quick reference for the planned club and special event call signs members traveling to the eyeball are planning to use. Current at time of publishing.

QSL Card Requirements

With so many of us planning to be mobile & portable with the eyeball, it was suggested by Dick WK1J, to remind everyone of the importance of including all of the pertinent information on QSL cards you are sending out.

In the May edition, I posted a similar reminder however as someone who works portable quite frequently, I still see a lot of cards arriving with missing information and it's not just from new stations.

There is a great refresher that can be found on our website: https://www.3905ccn.org/qslcardinfo.php

Below is an example from that page showing a card with all the required information included:

KC2PUF /M NJ 21-Aug-2010 0045 7.178 SSB 59 59	Confirming 2-way QSO wi	ith Date	UTC	MHz	2xMode	Sent	Rcvd
	KC2PUF /M NJ	21-Aug-2010	0045	7.178	SSB	59	59

Please also remember that many club stations and special event stations will be "NCN" or no card needed.

Thank you!

Simple logging of Portable/Mobile in Netlogger

Submitted by 73 de K9DBB & AI4K, Deb and Dave (aka D & D)

With the Eyeball just around the corner and so many folks operating Portable and Mobile I thought I would remind everyone about the "Station Location" function in Netlogger. Using Station Locations is a huge time saver and allows you to capture your correct State and Status for contacts made while not at your fixed home QTH.

By default; your station location is Fixed in your home state. Makes sense; doesn't it. Just look in Netlogger under 'Setup' and 'Station Location' and you will find your default.

Going mobile in New York?

Click the 'Default' and chose 'Copy and Edit' (you will get a similar screen to this).

Station Setup	p –	- (×
-Station Info			_
Station Name			
LoTW Certificate	none		\sim
Station Call Sign	K9DBB		
DXCC	291 - UNITED STATES OF AMERICA		×
State	TN - Tennessee		×
County	Tipton		~
ITU Zone	8 CQ Zone 4		~
Grid Square	EMSScj IOTA ID		5
City	Atoka		
Country	USA		
M/P	Fixed • TX Power		
Rig Info	IC 7610		
Station Notes			
Enable Club	Enable Additonal		
Club Call Sign	Additional Call Sign		
Club M/P	Fixed Additional M/P Fo	xed	Ŧ
	Create		

Enter a new station name: ex. K9DBB/M NY – this name is simply a label.

Change the State: ex. New York.

Change the M/P: ex. Mobile.

Click "Create".

You've now created a station location for Mobile in New York It will now appear in the "Current Station Location" drop down box.

all sign W/P state Info status Remarks Name Info Name City Rcvd 1 2 3 3 3 3 3 4	лс—	.73			d Control — e STAND/	ALONE	Net			✓ Profi	le 3905CCN	Timeout

Image: Second	ontac	cts		*		<u> </u>	_	Sign Filter 🗌 Remark	s Filter 🗌 Opera			Location	~	1

Make sure to choose it before logging any contacts you make while you are mobile in New York.

When you log contacts under this Station Location it will show your State as NY and your Status as M in your logged contacts IF you have those columns selected to show. To see those columns, go to 'Edit' then 'Contacts Table' and then 'Enable/Disable Columns'. Make sure 'My State' and 'My M/P' are checked. These columns will now show in your worked contacts area on Netlogger.

You can set up as many Station Locations as you need by using 'Copy and Edit' of any existing station location. You can also delete them from your list without affecting any contacts you made while using that station location.

TIP – When using this feature; get in the habit of checking your 'Current Station Location' before each net – it's easy to forget to change it back to default!

Another very helpful feature of using Station Location is that you can simultaneously log a Club and Special Event that you have brought to the nets.

Follow the same process above for creating a new station location. Notice at the bottom that there is a place for a Club and Additional Call Sign.

Station Setup)	-	×

Wow!That's great but what if I'm at a State Line or Tripoint? We've got you covered!

You can select multiple 'Station Location' entries to use.

To do this first make sure you have a station location set up for each state you will be working from.

Then go to 'Edit' then 'Station Location' and click each location that you will be at.(You will need to hold the "Ctrl" key down while selecting them). Once you have them all selected; Click 'Set Current' and then 'Done'.

¥	NetLogger	? ×	
	Setup Station Locations K9DBB/M WV es WD0W and W4A K9DBB/P CT es WD0W and W4A K9DBB/P MA es WD0W and W4A K9DBB/P ME es WD0W and W4A K9DBB/P NH es WD0W and W4A K9DBB/P RI es WD0W and W4A K9DBB/P TN K9DBB/P VT es WD0W and W4A K9DBB/P WV es WD0W and W4A		
	Edit Copy and Edit New Delete S	et Current	

In this example when I log a contact I will get 6 log entries because each of the 2 Station Locations has a club (WDOW) and Special Event (W4A) enabled on them.

K9DBB/P ME WD0W/P ME W4A/P ME K9DBB/P NH WDOW/P NH W4A/P NH The amount of time you save using Station Locations is worthwhile. Not to mention; less errors are made is logging contacts.

Fantastic but now I have a ton of Call Signs mixed in with my call. Can I sort them? Yes you can.

To sort the different call signs you need to create a "Custom Filter" Go to 'Edit' then to 'Custom Contacts Filter'

🚮 Ci	usto	m F	ilter Setup				?	×	Point Field Name' to Station.
	Cust		Contacts Filter Field Name	·	Operator		Value		Leaves the 'Operator' as the =
			Station	\sim	=	•	WD0W		sign
ign	ore	•	Call Sign	\sim	=	-			
ign	ore	٣	Call Sign	\sim	=	٣			Type the Call Sign you want to
ign	ore	٣	Call Sign	\sim	=	٣			see into "Value" field.
		Арр	bly		Done		Clear		Click 'Apply' then 'Done'
									Stick (ppt) then bone

To use your 'Custom Filter' just click the box next to it. You will now only see log entries for that Call Sign

You can uncheck it to see all the log entries for all call signs.

You can only have one Custom Filter made at a time. You can delete the filter by going back into 'Edit' then to 'Custom Contacts Filter' and clicking 'Clear' then 'Done' and unchecking the box next to it.

So there you have it! Dave and I were thrilled to learn about Station Locations – It has saved us a ton of time when we have gone on our travels. We don't claim to know it all so if you have any other tips that would be helpful, we'd be glad to hear them.

As Always, reach out if you have any questions that we may be able to assist with.We love this Club and its Members and Participants.
